Report on the Audit for the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Hartford, Maine, as of and for the year ended June 30, 2025 and the related notes to the financial statements, which collectively comprise the Town of Hartford Maine's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Town of Hartford, Maine as of June 30, 2025 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town of Hartford, Maine and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Hartford, Maine's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatements of the financial statements, whether due to fraud or error and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town of Hartford, Maine's internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise doubt about the Town of Hartford, Maine's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and OPEB information on pages 5 through 12 and 49 through 53 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Hartford, Maine's basic financial statements. The Schedule of Departmental Operations - General Fund, combining and individual nonmajor fund financial statements and capital asset schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional

procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Departmental Operations - General Fund, combining and individual nonmajor fund financial statements and capital asset schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 3, 2026, on our consideration of the Town of Hartford, Maine's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of the Town of Hartford Maine's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Hartford, Maine's internal control over financial reporting and compliance.

**REQUIRED SUPPLEMENTARY INFORMATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2025**

(UNAUDITED)

The following management's discussion and analysis of Town of Hartford, Maine's financial performance provides an overview of the Town's financial activities for the fiscal year ended June 30, 2025. Please read it in conjunction with the Town's financial statements.

Financial Statement Overview

The Town of Hartford's basic financial statements include the following components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also includes required supplementary information which consists of the general fund budgetary comparison schedule, OPEB schedules and other supplementary information which includes combining and other schedules.

Basic Financial Statements

The basic financial statements include financial information in two differing views: the government-wide financial statements and the fund financial statements. These basic financial statements also include the notes to financial statements that explain in more detail certain information in the financial statements and also provide the user with the accounting policies used in the preparation of the financial statements.

Government-Wide Financial Statements

The government-wide financial statements provide a broad view of the Town's operations in a manner that is similar to private businesses. These statements provide both short-term as well as long-term information in regard to the Town's financial position. These financial statements are prepared using the accrual basis of accounting. This measurement focus takes into account all revenues and expenses associated with the fiscal year regardless of when cash is received or paid. The government-wide financial statements include the following two statements:

The Statement of Net Position - this statement presents *all* of the government's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference being reported as net position.

The Statement of Activities - this statement presents information that shows how the government's net position changed during the period. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows.

The above-mentioned financial statements have been presented for the following activity:

- *Governmental activities* - The activities in this section are mostly supported by taxes and intergovernmental revenues (federal and state grants). All of the Town's basic services are reported in governmental activities, which include general government, public safety, roads, bridges and highway equipment, solid waste and recycling, community service, education and other.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Hartford, like other local governments uses fund accounting to ensure and demonstrate compliance with financial related legal requirements. All of the funds of the Town of Hartford are governmental funds.

Governmental funds: All of the basic services provided by the Town of Hartford, Maine are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported in governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources. They also focus on the balance of spendable resources available at the end of the fiscal year. Such information will be useful in evaluating the government's near-term financing requirements. This approach is known as the current financial resource's measurement focus and the modified accrual basis of accounting. Under this approach, revenues are recorded when cash is received or when susceptible to accrual. Expenditures are recorded when liabilities are incurred and due. These statements provide a detailed short-term view of the Town of Hartford, Maine's, finances to assist in determining whether there will be adequate financial resources available to meet the current needs of the Town of Hartford, Maine.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are presented on the page immediately following each governmental fund financial statement.

The Town of Hartford presents two columns in the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances. The Town of Hartford, Maine's major governmental fund, is the general fund and FEMA fund. All other funds are shown as nonmajor and are combined in the "Other Governmental Funds" column on these statements.

The general fund is the only fund for which the Town of Hartford, Maine legally adopted a budget. The Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund provides a comparison of the original and final budget and the actual expenditure for the current year.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Government-Wide and the Fund Financial Statements. The Notes to Financial Statements can be found following the Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities.

Required Supplementary Information

The basic financial statements are followed by a section of required supplementary information, which includes a Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund, Schedule of Changes in Net OPEB Liability - MMEHT, Schedule of Changes in Net OPEB Liability and Related Ratios - MMEHT, Schedule of Contributions - OPEB - MMEHT and Notes to Required Supplementary Information.

Other Supplementary Information

Other supplementary information follows the required supplementary information. These combining and other schedules provide information in regard to nonmajor funds, capital asset activity and other detailed budgetary information for the general fund.

TOWN OF HARTFORD, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Town of Hartford was incorporated under the laws of the State of Maine. The Town of Hartford, Maine operates under the selectboard-treasurer form of government and provides the following services: general government, public safety, roads, bridges and highway equipment, solid waste and recycling, community service, education and other.

The Town of Hartford, Maine's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

The Town of Hartford, Maine's combined financial statements include all accounts and all operations of the Town of Hartford, Maine. We have determined that the Town of Hartford, Maine, has no component units as described in GASB Statement No. 14 and amended by GASB Statements No. 39 and No. 61.

Implementation of New Accounting Standards

During the year ended June 30, 2025, the following statements of financial accounting standards issued by the Governmental Accounting Standards Board became effective:

Statement No. 101 "Compensated Absences". The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. Management has determined the impact of this Statement is not material to the financial statements.

Statement No. 102 "Certain Risk Disclosures". The objective of this Statement is to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. This Statement requires a government to assess whether a concentration or constraint makes the primary government reporting unit or other reporting units that report a liability for revenue debt vulnerable to the risk of a substantial

impact. Additionally, this statement requires a government to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact to have occurred, have begun to occur or are more likely than not to begin to occur within 12 months of the date the financial statements are issued. A disclosure should be made in the notes to financial statements if a government determines that those criteria for disclosures have been met for a concentration or constraint. Management has determined the impact of this Statement is not material to the financial statements.

Government-Wide and Fund Financial Statements

The Town of Hartford, Maine's basic financial statements include both government-wide (reporting the Town of Hartford, Maine as a whole) and fund financial statements (reporting the Town of Hartford, Maine's major funds).

Both the government-wide and fund financial statements categorize primary activities as governmental.

In the government-wide Statement of Net Position, the governmental activities column is (a) presented on a consolidated basis by column and (b) reported on a full accrual, economic resources basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Town's net position are reported in three parts - net investment in capital assets, restricted net position and unrestricted net position. The Town first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the Town of Hartford, Maine 's functions (general government, public safety, etc.) excluding fiduciary activities. The functions are also supported by general government revenues (property taxes, certain intergovernmental revenues, miscellaneous revenues, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. For the most part, the interfund activity has been eliminated from the government-wide financial statements.

The net costs (by function) are normally covered by general revenue (taxes, certain intergovernmental revenues and charges for services, etc.).

The Town does not allocate indirect costs. All costs are charged directly to the corresponding department.

TOWN OF HARTFORD, MAINE

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The government-wide focus is more on the sustainability of the Town as an entity and the change in the Town's net position resulting from the current year's activities.

Measurement Focus - Basic Financial Statements and Fund Financial Statements

The financial transactions of the Town of Hartford, Maine are reported in the individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements. The following fund types are used by the Town:

1. Governmental Funds:

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position (sources, uses and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Town:

Major Funds

- a. The General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.
- b. The FEMA fund is used to account for resources legally held in trust. All resources of the fund, including any earnings on invested resources, may be used to assist the elderly in the Town of Hartford, Maine. The major source of revenue is intergovernmental revenue.

Nonmajor Funds

- c. Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.
- d. Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities or equipment.

TOWN OF HARTFORD, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- e. Permanent Funds are used to account for assets held by the Town that are legally restricted pursuant to Title 30-A, §5653 of the Maine State Statutes, as amended and unless otherwise specified, only earnings and not principal, may be used for purposes that benefit the Town or its citizenry. The Town's policy for authorizing and spending investment income follows State statutes.

The emphasis in fund financial statements is on the major funds in the governmental activities category. Nonmajor funds by category are summarized into a single column. GASB Statement No. 34 sets forth minimum criteria (percentage of the assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues or expenses of either the fund category or the governmental and enterprise combined) for the determination of major funds. The nonmajor funds are combined in a column in the fund financial statements.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

1. Accrual

Governmental activities in the government-wide financial statements and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

2. Modified Accrual

The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

TOWN OF HARTFORD, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue Recognition

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the Town of Hartford, available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

Nonexchange transactions, in which the Town of Hartford receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the Town of Hartford must provide local resources to be used for a specified purpose and expenditures requirements, in which the resources are provided to the Town of Hartford on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Expenditure Recognition

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Most expenditures are measurable and are recorded when the related fund liability is incurred. However, principal and interest on long-term debt which has not matured are recognized when paid. Allocation of cost, such as depreciation, is not recognized in the governmental funds.

Budget

The Town of Hartford's policy is to adopt an annual budget for operations. The budget is presented on the modified accrual basis of accounting which is consistent with generally accepted accounting principles.

The following procedures are followed in establishing budgetary data reflected in the financial statements:

1. Early in the second half of the year the Town of Hartford prepares a budget for the fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.

TOWN OF HARTFORD, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. A meeting of the inhabitants of the Town of Hartford was called for the purpose of adopting the proposed budget after public notice of the meeting was given.
3. The budget was adopted subsequent to passage by the inhabitants of the Town of Hartford.

Deposits and Investments

The Town of Hartford's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

It is the Town's policy to value investments at fair value. None of the Town's investments are reported at amortized cost. The Town Treasurer is authorized by State Statutes to invest all excess funds in the following:

- Obligations of the U.S. Government, its agencies and instrumentalities
- Certificates of deposit and other evidence of deposits at banks, savings and loan associations and credit unions
- Repurchase agreements
- Money market mutual funds

The Town of Hartford has no formal investment policy but instead follows the State of Maine Statutes.

Receivables

Receivables include amounts due from governmental agencies. All receivables are current and therefore due within one year. Receivables are reported net of an allowance for uncollectible accounts and revenues net of uncollectibles. Allowances are reported when accounts are proven to be uncollectible. The allowance for uncollectible accounts is estimated to be \$0 as of June 30, 2025. Accounts receivable netted with allowances for uncollectible accounts were \$25,149 for the year ended June 30, 2025.

Interfund Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements.

TOWN OF HARTFORD, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Any residual balances outstanding between governmental activities and business-type activities are reported in the governmental-wide financial statements as "internal balances".

Transactions Between Funds

Legally authorized transfers are treated as interfund transfers and are included in the results of operations of Governmental Funds.

Capital Assets

Capital assets purchased or acquired with an original cost of \$1,000 or more are reported at historical cost or estimated historical cost. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Infrastructure such as streets, traffic signals and signs are capitalized. Other costs incurred for repairs and maintenance are expense as incurred. Depreciation on all assets is provided on the straight-line basis over the estimated useful lives.

The assets are valued at historical cost when available and estimated historical cost where actual invoices or budgetary data was unavailable. Donated capital assets are reported at their estimated fair market value on the date received. All retirements have been recorded by eliminating the net carrying values.

Infrastructure assets include roads, bridges, underground pipe (other than related to independently owned utilities), traffic signals, etc. These infrastructure assets are likely to be the largest asset class of the Town. The Town has not retroactively recorded infrastructure.

Estimated useful lives are as follows:

Buildings and improvements	20 - 50 years
Infrastructure	50 - 100 years
Equipment	3 - 50 years
Vehicles	3 - 25 years

Long-term Obligations

The accounting treatment of long-term obligations depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

TOWN OF HARTFORD, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

All long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in government-wide statements. The long-term obligations consist of a bond payable and net OPEB liability.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. The accounting for proprietary funds is the same in the fund statements as it is in the government-wide statements.

OPEB

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, management received and relied on an actuarial report provided to them by the Maine Municipal Employees Health Trust (MMEHT), which determined the Town of Hartford, Maine 's fiduciary net position as a single employer defined benefit plan based on information provided solely by MMEHT to complete the actuarial report. Additions to/deductions from the MMEHT OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by MMEHT. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

Net Position

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation reduced by the outstanding balances of any borrowing used for those assets and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on its use either through enabling legislations adopted by the Town of Hartford, Maine or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities and deferred inflows of resources that are not included in the determination of net investment in capital assets or restricted net position.

Fund Balance

In the fund financial statements, fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the Town of Hartford, Maine is bound to honor constraints on the specific purpose for which

TOWN OF HARTFORD, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

amounts in the funds can be spent. Fund balance is reported in five components - nonspendable, restricted, committed, assigned and unassigned.

Nonspendable - This includes amounts that cannot be spent either because they are not in spendable form or because they are legally or contractually required to be maintained intact.

Restricted - This includes amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors or the laws or regulations of other governments.

Committed - This includes amounts that can be used only for specific purposes determined by a formal action of the inhabitants of the Town. The inhabitants of the Town through Town meetings are the highest level of decision-making authority of the Town. Commitments may be established, modified or rescinded only through a Town meeting vote.

Assigned - This includes amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The authority for assigning fund balance is given annually by vote of the taxpayers and is expressed by the Selectboard.

Unassigned - This includes all other spendable amounts. The general fund is the only fund that reports a positive unassigned fund balance amount. Other governmental funds besides the general fund can only report a negative unassigned fund balance amount.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the Town considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned or unassigned fund balances are available, the Town considers amounts to have been spent first out of committed funds, then assigned funds and finally unassigned funds as needed unless the Town meeting vote has provided otherwise in its commitment or assignment actions.

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position and/or balance sheet will at times report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption

TOWN OF HARTFORD, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town currently has deferred outflows of resources related to OPEB, which arise only under the accrual basis of accounting that qualify for reporting in this category.

In addition to liabilities, the statement of financial position and or balance sheet will at times report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has deferred tax revenues, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, this item is reported in the governmental funds balance sheet. Prepaid taxes and deferred revenue also qualify for reporting in this category. These items are reported in both the statements of net position and governmental funds balance sheet. Deferred inflows of resources related to OPEB also qualifies for reporting in this category. This item is only reported in the statement of net position. All items in this category are deferred and recognized as an inflow of resources in the period that the amounts become available.

Revenue Recognition - Property Taxes - Modified Accrual Basis

The Town of Hartford, Maine's property tax for the current year was levied October 15, 2024, on the assessed value listed as of April 1, 2024, for all real and personal property located in the Town. Taxes were due on December 1, 2024, and May 1, 2025. Interest on unpaid taxes commenced on December 2, 2024, and May 2, 2025 at 8.50% per annum.

Property tax revenues are recognized when they become available. Available includes those property tax receivables expected to be collected within sixty days after year end. The remaining receivables have been recorded as deferred revenues.

The Town is permitted by the laws of the State of Maine to levy taxes up to 105% of its net budgeted expenditures for the related fiscal period. The amount raised in excess of 100% is referred to as overlay and amounted to \$34,585 for the year ended June 30, 2025.

Tax liens are placed on real property within twelve months following the tax commitment date if taxes are delinquent. The Town has the authority to foreclose on property eighteen months after the filing of the lien if tax liens and associated costs remain unpaid.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Program Revenues

Program revenues include all directly related income items applicable to a particular program (charges to customers or applicants for goods, services or privileges provided; operating or capital grants and contributions, including special assessments).

Encumbrance Accounting

Encumbrances are not liabilities and, therefore, are not recorded as expenditures until receipt of material or service. For budgetary purposes, appropriations lapse at fiscal year-end. The Town does not utilize encumbrance accounting for its general fund.

Use of Estimates

During the preparation of the Town's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent items as of the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results may differ from these estimates.

NOTE 2 - DEPOSITS AND INVESTMENTS

State statutes require that all investments made by the Town of Hartford, Maine consider the safe and sound investment of principal and preservation of capital in the overall portfolio, maintenance of sufficient liquidity to meet day-to-day operations and other cash requirements and maximization of income, within established investment risk guidelines, with consistent cash flows throughout the budgetary cycle. These investment policies apply to all Town funds.

Deposits:

Custodial credit risk for deposits is the risk that, in the event of a failure of a depository financial institution, the Town will not be able to recover its deposits. The Town does not have a policy covering custodial credit risk for deposits. However, the Town maintains deposits in qualifying financial institutions that are a member of the FDIC or NCUSIF as defined in Title 30-A, Section 5706 of the Maine Revised Statutes.

At June 30, 2025, the Town's cash and cash equivalents amounting to \$2,853,493 were comprised of bank deposits of \$2,932,881. Bank deposits are adjusted primarily by outstanding checks and deposits in transit to reconcile to the Town's cash and cash equivalents balance. All of these bank deposits were fully insured by federal depository insurance and consequently were not exposed to custodial credit risk.

<u>Account Type</u>	<u>Bank Balance</u>
Savings accounts	\$ 7,955
ICS/IntraFi account	<u>2,924,926</u>
	<u>\$ 2,932,881</u>

Investments:

Custodial credit risk for investments is that, in the event of failure of the counterparty, the Town of Hartford, Maine will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. Currently, the Town of Hartford, Maine does not have a policy for custodial credit risk for investments.

Interest rate risk - is the risk that changes in interest rates will adversely affect the fair value of an investment. The Town of Hartford, Maine does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from fluctuations in interest rates. Certificates of deposit held with local financial institutions for \$64,870 are excluded from interest rate risk as these investments are considered held to maturity and are therefore not measured at fair value.

At June 30, 2025, the Town of Hartford, Maine's investments of \$64,870 of certificates of deposit were all insured by federal depository insurance and consequently were not exposed to custodial credit risk.

Credit risk - Statutes for the State of Maine authorize the Town of Hartford, Maine to invest in obligations of the U.S. Treasury, agencies and instrumentalities, other states and Canada, provided such securities are rated within the three highest grades by an approved rating service of the State of Maine, corporate stocks and bonds within statutory limits, financial institutions, mutual funds and repurchase agreements. The Town of Hartford, Maine does not have an investment policy on credit risk. Generally, the Town invests excess funds in cash management accounts and various insured certificates of deposit.

NOTE 8 - ACCRUED COMPENSATED ABSENCES

The Town of Hartford, Maine's policies regarding vacation and sick time permit employees to accumulate earned but unused vacation and sick leave. Employees are granted vacation and sick leave in varying amounts. Unused vacation time accumulates to a maximum of 24 days and is paid upon termination of employment. Unused sick leave accumulates to a maximum of 90 days and is not paid upon termination of employment. The liability for vacation time is recorded as a long-term obligation in the government-wide financial statements. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources, while the proprietary funds report the liability as it is incurred. The liability as of June 30, 2025 was \$3,220 which represents a \$1,140 net increase from the prior year.

MAINE MUNICIPAL EMPLOYEES HEALTH TRUST

Plan Description

The Town and Town retirees contribute to the Town's OPEB Plan with the Maine Municipal Employees Health Trust (MMEHT), a single employer defined benefit plan. Contributions and membership in this Plan are voluntary and may be terminated at any time by the Town and/or the Town retirees. MMEHT is a fully funded, self-insured trust which provides benefits to municipal and quasi-municipal organizations and county governments and acts as the agent to the Town concerning administration of this Plan. Title 24-A Chapter 81 of the Maine Revised Statutes Annotated authorizes the regulation of MMEHT as a Multiple Employer Welfare Arrangement by the State of Maine Bureau of Insurance. Benefits and plans are designed and governed by MMEHT participants and are administered by a number of third-party administrators contracted by MMEHT. No assets are accumulated in a trust that meets the criteria of paragraph 4 of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. MMEHT issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by MMEHT at (800) 852-8300.

Benefits Provided

This Plan provides medical/prescription drug benefits during retirement to Medicare and non-Medicare retirees and their surviving spouses with varying levels of benefits determined by voluntary plan selection by the retiree as well as applicable Medicare statutes and regulations. The Plan also provides an automatic life insurance benefit of \$2,000 to participants which includes a surviving spouse benefit for the same. The employee must meet the minimum requirement of age 55 with at least 5 years of service at retirement to be eligible for the Plan. The retiree must enroll when first eligible and continue coverage without interruption.

Contributions

Retiree and spouse premium amounts are funded by the retiree at the rate for the coverage elected by the retiree. Premium rates are those determined by the MMEHT’s Board of Trustees to be actuarially sufficient to pay anticipated claims. Premiums for retiree life insurance coverage are factored into the premiums paid for basic coverage. Retirees and spouses must contribute 100% of the premium amounts. The sponsoring employer pays the remainder of the premium. Medical benefits are provided for the life of the retiree and surviving spouses.

Total OPEB Liability, OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2025, the Town reported a liability of \$5,017 for its total OPEB liability for this Plan. The total OPEB liability was measured as of January 1, 2025 and was determined by an actuarial valuation as of that date. The Town’s total OPEB liability was based on the Entry Age Normal Actuarial Cost Method which does not reflect future changes in benefits, subsidies, penalties, taxes or administrative costs that may be required as a result of the Patient Protection and Affordable Care Act of 2010 (ACA) related legislation and regulations.

Discount Rate

The discount rate is the assumed interest rate used for converting projected dollar related values to a present value as of the valuation date of January 1, 2025. The discount rate determination is based on the high-quality AA/Aa or higher bond yields in effect for 20-year, tax-exempt general obligation municipal bonds using the Bond Buyer 20-Bond GO Index. The rate of 4.08% per annum for June 30, 2025 was based upon a measurement date of December 26, 2024. The sensitivity of net OPEB liability to changes in discount rate are as follows:

	1% Decrease	Discount Rate	1% Increase

Healthcare Trend

The healthcare trend is the assumed dollar increase in dollar-related values in the future due to the increase in the cost of health care. The healthcare cost trend rate is the rate of change in per capita health claim costs over time as a result of factors such as medical inflation, utilization of healthcare services, plan design and technological developments. The sensitivity of net OPEB liability to changes in healthcare cost trend rates are as follows:

NOTE 17 - OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN (CONTINUED)

Actuarial Methods and Assumptions

The total OPEB liability for the Plan was determined by an actuarial valuation as of January 1, 2025, using the following methods and assumptions applied to all periods included in the measurement:

Actuarial Cost Method

The Entry Age Normal Actuarial Cost Method is used to determine costs. Under this funding method, a normal cost rate is determined as a level percent of pay for each active Plan member and then summed to produce the total normal cost for this Plan. The unfunded actuarial liability is the difference between the actuarial liability and the actuarial value of assets.

For medical and pharmacy, historical claims and census records were assembled and provided through June 30, 2023. Medicare and non-Medicare eligible medical and prescription experience were analyzed. It was assumed that current enrollment distribution of benefit options would remain constant in the future for retirees. The cost was distributed based on the current covered population and the actuary's standard age curves which vary by age, gender and Medicare status. Children costs are converted to a load on the non-Medicare retirees which implicitly assumes that future retirees will have the same child distribution as current retirees.

Assumptions

The actuarial assumptions used in the January 1, 2025 actuarial valuation were adopted by the Maine State Retirement Consolidated Plan for Participating Local Districts as of June 30, 2022 and based on the experience study covering the period from June 30, 2016 through June 30, 2020. As of January 1, 2025, they are as follows:

Discount Rate - 4.08% per annum for year end 2025 reporting. 3.26% per annum for year end 2024 reporting.

Trend Assumptions:

Medical Trend assumptions were developed using the Society of Actuaries (SOA) Long-Run Medical Cost Trend Model. The SOA model was released in December 2007 and version 2025_1b was used for this valuation. The following assumptions were input into this model:

TOWN OF HARTFORD, MAINE

NOTE 17 - OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN (CONTINUED)

<u>Variable</u>	<u>Rate</u>
Rate of Inflation	2.38%
Rate of Growth in Real Income/GDP per capital 2029+	1.40%
Extra Trend due to Taste/Technology 2029+	1.10%
Expected Health Share of GDP 2034	19.00%
Health Share of GDP Resistance Point	18.00%
Year for Limiting Cost Growth to GDP Growth	2045

The SOA Long-Run Medical Cost Trend Model and its baseline projection are based on an econometric analysis of historical U.S. medical expenditures and the judgements of experts in the field. The long-run baseline projection and input variables have been developed under the guidance of the SOA Project Oversight Group.

The trends selected from 2025 to 2028 were based on plan design, population weighting, renewal projections and market analysis. For years 2029 to 2033, these are interpolated from 2028 to 2034 (which is the product of the inflation, GDP and extra trend rate assumptions).

Deductibles, Co-payments and Out of Pocket Maximums are assumed to increase at the above trend rates. The ultimate trend rate reflects an assumed nominal per capital GDP growth.

Administrative and claims expense: 3% per annum

Future plan changes: It is assumed that the current Plan and cost-sharing structure remains in place for all future years.

Retirement Rates - Rates vary for plans with no explicit employer subsidy (or payment) versus those plans defining an explicit employer subsidy (or payment). The rates are based on assumptions from the Maine State Retirement Consolidated Plan for Participating Local District at June 30, 2021.

Retirement Contribution Increases - Assumed to increase at the same rate as incurred claims. A constant cost sharing in plan design between employer and employees is assumed.

Family Enrollment Composition - For males, 50% of future retirees under the age of 65 and 50% of current retirees are married and elect spousal coverage while females are at 30% for both. 25% of male and female future retirees over the age of 65 are married and elect spousal coverage.

Age Difference of Spouses - Husbands are assumed to be 3 years older than wives.

Administrative expenses - Determined separately for non-Medicare and Medicare retirees including the estimated impact of rebates.

Disability Incidence - Disabled lives will be considered active employees and will not be valued separately.

Salary Increase Rate - 2.75% per year assumed using the level percentage of pay entry age method.

Dates of Hire - Needed to be assumed for some employees and will be based on the average age at hire for similar employees.

Rate of Mortality:

Healthy Annuitant- Based on 112.1% and 118.5% of the 2010 Public Plan General Benefits-Weighted Healthy Retiree Mortality Table, respectively, for males and females. The proposed rates are projected generationally using the RPEC_2020 model, with an ultimate rate of 1.00% for ages 80 and under, grading down to 0.05% at age 95 and further grading down to 0.00% at age 115, along with convergence to the ultimate rates in the year 2027. All other parameters used in the RPEC_2020 model are those included in the published MP-2020 scale. As prescribed by the Trust, mortality rates were taken from the assumptions for the Maine State Retirement Consolidated Plan for Participating Local Districts at June 30, 2021.

Active Employees - Rates of mortality are based on 83.5% and 88.6% of the 2010 Public Plan General Benefits - Weighted Employee Mortality Table, respectively, for males and females. These rates are generationally projected using the same version of the RPEC_2020 model as described in the healthy annuitant mortality. As prescribed by the Trust, mortality rates were taken from the assumptions for the Maine State Retirement Consolidated Plan for Participating Local Districts at June 30, 2021.

Changes in Net OPEB Liability

Changes in net OPEB liability are recognized in OPEB expense for the year ended June 30, 2025 with the following exceptions:

Differences between Expected and Actual Experience

The difference between expected and actual experience are recognized in OPEB expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. The first year is recognized as OPEB expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources. The difference between expected and actual experience as of January 1, 2025 was (\$550).

Changes in Assumptions

Differences due to changes in assumptions about future economic, demographic or claim and expense factors or other inputs are recognized in OPEB expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. The actuarial assumptions used in the January 1, 2025 actuarial valuation were adopted by the Maine State Retirement Consolidated Plan for Participating Local Districts as of June 30, 2021 and based on the experience study covering the period from June 30, 2016 through June 30, 2020. The first year is recognized as OPEB expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources.

Differences between Projected and Actual Earnings on OPEB Plan Investments

Differences between projected and actual investment earnings are recognized in OPEB expense using a straight-line amortization method over a closed five-year period. The first year is recognized as OPEB expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources.

NOTE 18 - RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions and natural disasters for which the Town participates in a public entity risk pool sponsored by the Maine Municipal Association. The Maine Municipal Association Group Risk Pool is a state chartered pool established exclusively for Maine municipalities. The pool provides certain property, liability, fidelity and vehicle coverage. If the assets of the pool are at any time actuarially determined to be insufficient to enable the pool to discharge its legal obligations, other obligations and actuarially sound reserves, the pool has the power to make up the deficiency by the levy of a prorated assessment. There have been no deficiencies during the past three years and management believes that no deficiency exists at June 30, 2025.

The Town is a member of the Maine Municipal Association - Property and Casualty Pool and pays an annual premium for its coverage. Under the property portion of the policy, coverage is provided after a per occurrence deductible is met. The limit of coverage for liability claims brought under the Maine Tort Claims Act is \$400,000 per occurrence. A \$2,000,000 limit of liability is provided for liability claims outside the Maine Tort Claims Act. There is no aggregate liability limit. Coverage for Public Officials Liability, including Employment Practices, is a part of the program. Coverage is on an occurrence basis, rather than a "claims made" form. A \$2,000,000 limit of liability is provided for all claims for Wrongful Acts seeking monetary damages pursuant to federal or state law for which the Maine Tort Claims Act does not provide immunity or limitations. Each member has a \$4,000,000 annual aggregate limit. An annual sublimit of \$100,000 per member applies for all back wages and/or future salary awards for employment related claims, subject to a \$5,000 retention and a 10% contribution by the member.

The Town is also a member of the Maine Municipal Association - Worker Compensation Trust Fund ("Fund"). The Fund was created to formulate, develop and administer a program of modified self-funding for the Fund's membership, obtain lower costs for worker's compensation coverage and develop a comprehensive loss control program. The Town pays an annual premium to the fund for its worker's compensation coverage. The Town's agreement with the Fund provides that the fund will be self-sustaining through member premiums and will provide, through commercial companies' reinsurance contracts, coverage for claims in excess of \$1,000,000.

Based on the coverage provided by the insurance purchased, the Town is not aware of any material actual or potential claim liabilities which should be recorded as of June 30, 2025. There were no significant reductions in insurance coverage from that of the prior year and amounts of settlements have not exceeded insurance coverage in the past three years.

NOTE 19 - CONTINGENCIES

With regard to pending legal claims or any unasserted claims, it is not feasible at this time to predict or determine their outcome. Management believes, however, that settlement amounts, if any, will not have a material adverse effect on the Town's financial position.

The Town participates in various intergovernmental grant programs which may be subject to future program compliance audits by the grantors or their representatives. Accordingly, the Town's compliance with applicable grant requirement may be established at some future date. The amount, if any, of any liabilities arising from the disallowance of expenditures or ineligibility of grant revenues cannot be determined at this time.

NOTE 20 - COMMITMENTS

The Town of Hartford, has entered into a contract for fire services with the Towns of Canton, Turner, Buckfield and Elsmar. The contract term for these services is extended from July 1, 2025 and will end June 30, 2028 for fire suppression services.

The Town entered into a extension of the contract for sand with WA Lucas Enterprises LLC beginning July 1, 2024 and ending June 30, 2027.

The Town has also entered into a contract for trash and recycling services with Archies Inc. There are additional tipping fees within the contract. The contract term for these services is for three years beginning July 1, 2021 and ending June 30, 2026, with a renewal option of two years.

The annual contract costs for these services are as follows:

Year Ending June 30,	Plowing	Trash and Recycling	Fire and Rescue	Mowing
2026	\$ 363,250	\$ 64,589	\$ 86,913	\$ 13,000

	<u>\$ 363,250</u>	<u>\$ 64,589</u>	<u>\$ 274,081</u>	<u>\$ 13,000</u>

For the twelve months ended June 30, 2025, the Town paid \$418,753 for plowing and sanding services and \$118,427 for trash, tipping fees and recycling services. All future contract amounts are subject to annual appropriation by the Town of Hartford, Maine.

NOTE 21 - RELATED PARTY TRANSACTIONS

The Town's Selectboard entered into a contract with a company that provides miscellaneous public works services to the Town. The owner of the company is also employed by the Town as Road Commissioner. For the fiscal year ended June 30, 2025, payments made to the company were \$43,678.

NOTE 22 - RESTATEMENTS

During fiscal year 2024, the Town of Hartford determined that certain transactions were recorded incorrectly or omitted. The accrued compensated absences balance was restated, resulting in an adjustment to beginning net position to correct a prior-year misstatement. The Town identified that FEMA revenues and expenses related activity had been incorrectly reported within the General Fund in prior reporting. Upon review, management determined that this activity should be accounted for in a separate FEMA major fund to properly present financial activity in accordance with generally accepted accounting principles.

As a result, the financial statements have been restated to reclassify the FEMA activity to the FEMA fund. This required a restatement to both the General Fund beginning fund balance and to the FEMA fund beginning fund balance. The restatement had no impact on the Town's total net position, only on the allocation of fund balances between funds. The restatements of beginning net position and fund balances are as follows:

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Selectboard
Town of Hartford
Hartford, Maine

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Hartford, Maine as of and for the year ended June 30, 2025 and the related notes to the financial statements, which collectively comprise the Town of Hartford, Maine's basic financial statements and have issued our report thereon dated February 3, 2026.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Hartford, Maine's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Hartford, Maine's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Hartford, Maine's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, misstatements on a timely basis. A material weakness is a deficiency or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the organization's financial statements will not be prevented or detected and corrected, on a timely basis. A significant deficiency is a deficiency or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Hartford, Maine's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. We noted certain other matters that we reported to management of the Town of Hartford, Maine in a separate letter dated February 3, 2026.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
