

Town of Hartford
Road Committee Meeting
Approved Minutes
5:30 @ Hartford Town Hall
September 15, 2025

Present: Road Committee members Rick Gammon, David Therriault, Morrill Nason, Andrew Conant, Road Commissioner Bim McNeil, Selectmen Aaron Harvey, and Cathy Lowe.

- I. Committee members approved the minutes of the previous meeting.
- II. Bim and Aaron described two areas on Davenport Road totaling 1650 lineal feet and one stretch of Darrington Road total 1200' is ready to be paved using FEMA funds. Spencer Paving agreed to pave the sections of the two roads after paving Pratt Hill Road using same rate per ton as Pratt Hill Road.
- III. Bim described work he would like to do on Town Farm Road. Aaron described how one resident wanted wood moved five feet to allow for ditch.
- IV. The committee talked with David about getting a map tech program with a disc that the Town can use to record repairs done to roads. David volunteered to load information onto the program. Morrill would like a map of Town roads to scale. As the committee works on plans for repairs we could follow along with a scaled plan.
- V. Rick brought up erosion on Pratt Hill Road from heavy rain last week. Tire ruts allow streams of water to wash fines from the newly shimmed road. The committee talked about ways to mitigate erosion by crowning and swaling areas with high potential of washouts. Also, suggested using crushed aggregate in sensitive areas instead of aggregate with fine round particles. Rick compared pricing and crushed is only approximately \$5.00 per yard more than round aggregate.
- VI. Meeting adjourned.
