Amanda shared some photos of why the town should seriously consider the need for a cement pad under any future metal pile-sharing a neighboring town's current difficulties cleaning up a metal pile with no pad.

The committee spent some time catching Eileen up on the background of the Solid Waste situation in Hartford and the current challenges that we have with Solid Waste and the challenges with Archie's. The discussion also covered the work that the SW committee has completed-calling many other SW providers and learning that there were no other service providers that would have interest in servicing Hartford. Additionally, we reviewed the information that was shared from AVCOG-we should expect any future curbside contract with Archie's to be 3 or 4 times the current cost the town's people are paying.

4) Field Trip to Archie's: Tabled

5) Decision of who will be assigned to be present during bulky waste:

Sun Shelter needed

Committee would like to ensure that a member of the selectman is present.

Discussion of Constable may be needed on site.

Amanda volunteered to do morning shift on the 27th. Bev prefers to do the 20th morning shift. Lee though she could do either.
